

## Academic Integrity Pledge

*For Students and Parents*

As members of the Columbia Virtual Academy Middle School community, we recognize the importance of academic integrity and the responsible use of technology, including artificial intelligence (AI) tools. We understand that maintaining honesty and ethical standards in our academic work is crucial to our educational success and the trust within our community.

### As a Student, I pledge to:

1. **Complete My Own Work:** I will ensure that all assignments, tests, and projects I submit are my original work.
2. **Use AI Responsibly:** I will use AI tools as learning aids, not as substitutes for my own effort, and I will disclose any use of AI in my work.
3. **Cite Sources Properly:** I will properly credit all sources, including AI-generated content, in my work.

### As a Parent, I pledge to:

1. **Support My Child's Learning:** I will encourage my child to complete their own work and understand the importance of academic integrity.
2. **Monitor and Support:** I will monitor my child's academic progress and support their adherence to this Academic Integrity Policy.

**Together, we commit to upholding the values of academic integrity in our school community. We understand that violations of this pledge may result in consequences, including redoing assignments, receiving reduced grades, or facing disciplinary actions.**

**Student Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Parent/Guardian Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

By signing this pledge, we affirm our commitment to the principles of academic integrity and the responsible use of AI tools as outlined in the CVA Academic Integrity Policy.
